General Terms and Conditions for Corridor Energy Cooperative Heat Plus

Warranty Disclaimer: Corridor Energy Cooperative makes no warranties, either express or implied, including but not limited to warranties of merchantability or fitness for a particular purpose, with respect to equipment operation, materials, workmanship, or manufacturing. Corridor Energy Cooperative does not warrant or guarantee that the installation or use of any equipment or participation in this rate will result in any specific level of energy savings or cost reduction.

Limitation of Liability: Participating member(s) expressly acknowledge and agree that Corridor Energy Cooperative's sole obligation and total liability under this rate shall be limited to payment of the rate specified herein, subject to full compliance with all applicable terms and conditions. In no event shall Corridor Energy Cooperative be liable for any indirect, incidental, special, exemplary, or consequential damages of any kind, including but not limited to lost profits, loss of use, or equipment damage, arising out of or in connection with participation in this rate or any requirements associated therewith.

Member Certification: By participating in this rate, member(s) represent and warrant that all information provided in the application is true, accurate, and complete to the best of their knowledge. Member(s) further certify that all eligibility criteria have been satisfied at the specified service location served by Corridor Energy Cooperative and that all program requirements have been, and will continue to be, met in full.

Eligibility Criteria: This rate is available only to accounts classified under Residential Rate Codes 11TOD and 12TOD, and Commercial Rate Code 13TOD. The rate is not applicable to accounts with Alternative Energy Production (AEP) or to multiplex units consisting of more than two dwelling units. Member(s) must meet and maintain compliance with the eligibility requirements outlined in Corridor Energy Cooperative's applicable Tariff provisions for Rate Codes 17DFM and 19DFM. The Heat Plus Meter is a subtractive-type meter and must be energized from the General Use Meter.

General Provisions: The Heat Plus Rate is a pass-through rate established by Corridor Energy Cooperative's wholesale power supplier, Central Iowa Power Cooperative (CIPCO). As participation in this rate is voluntary, Corridor Energy Cooperative reserves the right, in its sole discretion, to modify, suspend, or terminate the rate, restrict eligibility to specific rate classes, and/or remove any cooperative-owned metering equipment if it is determined that the equipment is no longer in regular use or if the member is in breach of any program requirement. This includes allowing Corridor Energy Cooperative to inspect the Meter Socket and/or breaker panels at any time to ensure compliance.
